01

Side Frame

An accessory that secures between a column and a pillar.

02

Railing

Prevent the falling of products stored on a shelf

03

Divider

separation partition. Ease of product separation and storage

04

Handle Type

the Handle type can be combined for convenience of movement.

05

“S” hook

When use to arrange shelves and shelves at right angles or in a row

06

Peanut type Bracket

When arranging shelves in a row, combine columns with columns

07

Height adjusting bolt

Adjustment screw to adjust the height of the metal rack.

08

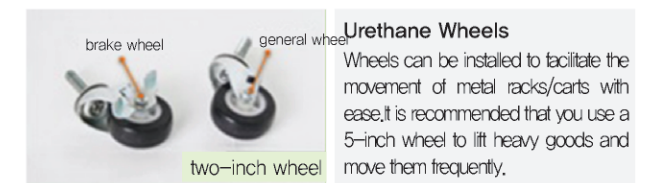

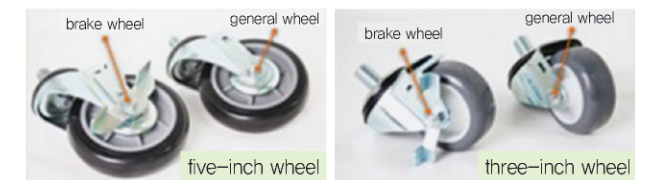

Sleeve

Fix it on a pole and join it to a shelf.
